Brandenburgers Driven Out of Delville Wood by British Forces

IN THEIR LAST FINAL ONSLAUGHT

Fighting Said to Have Been Fiercest of War

VICTORY IS IMPORTANT

Verdun Battle Still Raging With Violence—French Artillery Fire Checked German Effort to Attack Thiamont Northeast of Citadel—Russian Advance at Brody Still Successful

The desperate efforts by the Germans to retain a foothold in Delville wood, on the Somme front, have failed, according to the London war office, which today announced the entire wood is in British possession. The importance which the Germans attached to this position is indicated by the British statement that it was defended by the famous Brandenburgers, who were driven out in the final onset by General Haig's forces.

Delville wood, immediate adjoins Longueval, a portion of which was shown by last night's official statement from London to be still in German possession. The success of the British announced today is expected greatly to facilitate their efforts to clinch their hold of Longueval and advance along the road to Bapaume. This highway runs through the village.

The fighting for Delville wood is said by observers to have been virtually the fiercest of the war. The violence of the British bombardment is attested by an estimate that on the 1,000 yard front during one period, three shells a minute fell on every yard.

The battle at Verdun is still raging with violence. Paris reports a German effort to attack at Thiamont northeast of the citadel which was checked in its preparatory period by the French artillery fire.

The clearing of German trenches at Auberville in the Champagne by a Russian reconnoitering party is also announced in the Paris statement.

The Russians returned with some prisoners.

The Russian advance directed at Brody, in northwestern Galicia, is continuing successfully. Petrograd announces. The Russians are hammering at the Austrian lines in the Slonavka region from which river General Sakharoff's forces have driven the Austrians back to the Boldurovka, a branch of the Strv which runs through Brody. The Russian movement here is an enveloping one, which threatens, if pushed, to compel the evacuation of Brody and facilitate an advance toward Lemberg along this line.

Berlin announces the execution after trial by court martial at Bruges of Captain Charles Fryatt of the British great eastern railway steamer Brussels on the charge of having attempted to ram a submarine. The Brussels was captured by German destroyers last month and taken into Zebrugge.

PEACE SUNDAY, AUGUST 6.

New York, July 28.—Dedication of Sunday, August 6, to prayers for peace by Christians throughout the world, is urged in a call sent out today by the World Alliance for Promoting International Friendship through churches. All churches are asked to hold special services.

German Soldiers Say They Do Not Hate the Russians, But Will Fight to the End

With the German Army on the Riga front, July 25, by courier to Berlin, via London, July 28, 5:05 a. m.—The Russian efforts to break the German lines at various points on this front, which the Associated Press correspondent has had an unusually favorable opportunity of inspecting personally in the last few days, have neither affected the front, nor—what is perhaps equally important—the morale of the German troops.

The correspondent has viewed the great sectors of the front from south of Kekkau to a point well south of Friedrichstadt, has stood in the trenches amid the devastation of drum fire of but a few hours before and has talked freely with the men engaged. He has also mingled unconcernedly with the troops behind the front and has endeavored in every way possible to find some indication of a falling off in the morale of the fighting spirit.

At one barracks the commander said to the soldiers: "Here is an American correspondent. Tell him all he wants. I am leaving him here alone and shall not try to find out what questions he asks nor what you told him." The commander and all other officers then left the barracks and the soldiers answered every question put to them with the utmost frankness.

The correspondent, who had been cautioned that he was likely to find much anti-American feeling among the troops, put questions designed to discover if such sentiment existed. All the men questioned declared they knew nothing of the existence of such a feeling. One soldier summed up their attitude as follows:

"Some American ammunition is being used here but that is a political question and we do not know much about politics. We don't hate anybody. We don't hate the Russians. We are here to fight and we are going to keep right on fighting until the enemy has had enough, whether it lasts one year or ten."

The men were asked if the rations were sufficient. None were found who did not express complete satisfaction. The soldiers were openly amused when informed it had been reported abroad that their rations had been cut down and that they were often forced to go hungry.

TODAY IN CONGRESS

NO RELIEF IS PROMISED TO HEAT VICTIMS

PRACTICALLY EVERY SECTION IN THE COUNTRY IS SUFFERING TODAY.

Six Deaths in Chicago Reported Before 9 a. m.—Workmen in Mills Quit Work.

(Associated Press Telegram)
Chicago, July 28.—No relief from the excessive heat wave, which has gripped practically the entire country, was held out by officials of the weather bureau here today. Chicago, St. Louis, and Milwaukee, with temperatures of 84, were the hottest cities in the country at 7 a. m. Winemucca, Nev., with a temperature of 86, was the coolest spot.

Six more deaths in Chicago, due to the heat, were reported to the coroner before 9 a. m. today. Last night was the hottest in the history of Chicago. The temperature was 90 at midnight. The temperature rose rapidly today, reaching 92 at 5 a. m., one degree warmer than the same period yesterday and going to 93 at 9:30 o'clock.

Southeasterly winds, carrying practically no cooling effect, prevailed.

Workmen in the rolling mills of the Republic Iron and Steel company in East Chicago and the Interstate Iron and Steel company in Chicago refused to go to work on account of the intense heat this morning and as a result both mills were closed until the present period of hot weather is over. The men participating in the protest numbered 2100. Temperatures taken in the rolling mills a few days ranged from 140 to 160 degrees.

Pitiful winds from the lake gave Chicago and other lake cities a measure of relief, the temperature at noon being 95, a few degrees under yesterday's mark at that hour.

Deaths from the heat are increasing in number, twenty-five being reported to the policemen this morning.

TOLEDO ICE DEALERS TURN DOWN ORDERS FROM OTHER CITIES.

(Associated Press Telegram)
Toledo, July 28.—Efforts of Columbus and Detroit ice dealers who came here yesterday to place orders for ice were fruitless. All out of town orders are being turned down.

Ice merchants say, because of the unusual local demand, Toledo consumes about 1800 tons of ice daily, it is estimated.

MIDDLEWEST IN HEAT'S GRIP AND NO RELIEF SEEN.

(Associated Press Telegram)
Chicago, July 28.—Illinois and neighboring states found no relief today from the unusual heat wave and there was a probability that the records of 100 degrees yesterday might even be broken. There was little cheer in the announcement of the weather forecast here that "fair and continued warm" would be the rule in this section of the country today.

Deaths directly due to the heat numbered 17 for the 24 hours ending at six o'clock this morning, according to reports received at the central police station. More than two score prostrations were reported. Thousands sought relief in Lake (Continued on Page 11, Col. 6.)

Of Four Members of Farm Loans Board Announced by President

2 DEMOCRATS AND 2 REPUBLICANS

Nominations Made Under New Rural Credit Law

12 FEDERAL LAND BANKS

Are to Be Established in As Many Districts Throughout the Country—Secretary McAdoo is Ex-Officio Member of the Board—Some of the Provisions of New Law

Washington, July 28.—Division of the country into 12 federal land bank districts and location of federal land banks in each of them under the new rural credit law will be undertaken soon by the federal farm loan board, four of whose members were nominated yesterday by President Wilson. Secretary McAdoo, who as an ex-officio member completes the board, said last night, however, that he believed it would be impossible to conclude organization of the system in less than six months, and that it might not be in actual operation before next spring.

The four men nominated as members of the board are Charles E. Lobdell of Kansas, George W. Norris of Pennsylvania, W. S. A. Smith of Iowa and Herbert Quick of West Virginia. The President is expected to designate either Mr. Norris or Mr. Quick, the Democratic members of the board, to act as farm loan commissioner and executive head of the farm loan system.

Until the Senate acts upon the nominations, no date for a meeting can be set, but it was believed probable that the members would get together within two weeks. Hearings on the designation of districts and the location of banks probably will begin some time in September. The first of these is expected to be held here, and most of the state capitals probably will be visited before they are concluded. That will require several months, and other technical steps provided in the act preliminary to actual organization of the banks probably will require operation of the system before February or March.

Although in making his selections, the President named a lawyer, a banker, a farmer and an economist, it was pointed out that the board would have little to go on in framing its decisions. The vast amount of information collected by the reserve bank organization committee two years ago in angling the federal reserve districts and designating the federal reserve bank center will be virtually valueless to the new board. That committee paid particular attention to the flow of commerce and the channels of trade and (Continued on Page 12, Col. 3.)

OFFENSIVE IN GREECE BEGUN BY SERBIANS

(Associated Press Telegram)
Paris, July 28.—Serbian forces have begun an offensive against the Bulgarians in Greece, according to a Havas dispatch received here today from Saloniki. The Serbians have occupied a series of heights and are maintaining their position despite the artillery fire and counter attacks of the Bulgarians.

For the last three days, the dispatch adds, the Serbians had been making methodical preparations for the purpose of driving the Bulgarians from the positions which they occupied six or seven miles south of the Greek frontier.

BANK CLERK IS BOUND OVER AT COLUMBUS TODAY

(Associated Press Telegram)
Columbus, July 28.—John W. Bailey, formerly employed as a clerk in the Citizens' Trust & Savings bank here, entered a plea of not guilty to a charge of embezzlement and waived examination today when arraigned in municipal court. He was arrested in Cincinnati, Wednesday, charged with taking \$5,559.63 of the bank's funds.

Bailey was bound over to the Franklin county grand jury under \$6,000 bond.

ENGLAND BARS OPIUM.

(Associated Press Telegram)
London, July 28, 12:22 p. m.—The importation of opium and cocaine into the United Kingdom is prohibited by a royal proclamation issued today. There has been considerable agitation lately in this country against the sale of cocaine, which, it is said, has been used in increasing quantities in the past few years.

GERMANS CAPTURED IN DRIVE TAKEN HURRIEDLY TO THE REAR

German soldiers captured by British in Picardy being taken to the rear. This photograph was taken in a little village in Picardy, just back of the British lines. The German prisoners shown in the picture were captured only an hour or two before the photograph was taken. It will be noted that the prisoners have not had time to have their wounds properly dressed, some of them holding their hands to their heads in evident pain, while others have their wounds hastily dressed.

EXECUTION

BY GERMAN CAPTAIN OF STEAMER CAPTURED BY TORPEDO BOATS.

Charged That He Attempted to Ram a Submarine—Allies Say Execution Was Illegal.

(Associated Press Telegram)
Berlin, July 28.—(By wireless to Sayville.)—Captain Charles Fryatt of the Great Eastern railway steamer Brussels which vessel was captured by German destroyers last month and taken into Zebrugge, has been executed by shooting after trial before a German naval court martial. The death sentence was passed upon Captain Fryatt because of his alleged action in attempting previously to ram a German submarine.

Testimony was presented at the court martial to show that while Captain Fryatt did not belong to the armed forces he had attempted on March 28, 1915, while near the Maas lightship, to ram the German submarine U-33.

When captured by German torpedo-boats on June 21, Captain Fryatt was piloting the steamship Brussels from Rotterdam to Tilbury. Several German warships dashed out of the naval base at Zebrugge and escorted the Brussels back to the Belgian harbor.

Dutch newspapers said it was generally believed that the capture of the Brussels was brought about by a passenger who said he was an American but who was believed to be a German. This man remained on deck through out the voyage and was said to have made signals with lights, with the result that the German warships steamed up and halted.

BRUTAL VIOLATION INTERNATIONAL LAW IS VIEW OF ALLIES.

(Associated Press Telegram)
Washington, July 28.—Germany's execution of Captain Charles Fryatt, master of the British steamship Brussels, was today denounced by the Allies as a brutal violation of international law.

NAVAL BATTLE ENGLISH WITH THE GERMANS

(Associated Press Telegram)
Berlin, July 28.—(By wireless to Sayville.)—In a naval battle between British and German submarines and three British patrol boats off the coast of Scotland, one of the British vessels was sunk, according to a report received by the Deutsche newspaper Wundeloh and telegraphed to the Overseas News Agency today. The dispatch continues:

"The patrol boats were the Nellie Natten, Onward and Eva. The Nellie Natten was sunk. Three members of her crew were killed and the remaining 11 sailors were rescued by a Dutch fishing boat and landed in a Scotch harbor. Three of the 11 men rescued later died in consequence of their wounds. The other two patrol boats are supposed to have been lost with the whole of their crews."

Report of Bremen's Capture Appears To Be Unfounded; Deutschland Delays Leaving

(Associated Press Telegram)
Halifax, N. S., July 28.—Nothing is known here of the Bremen story further than the report from New York.

The above telegraphic dispatch alludes to the report that the German submarine Bremen had been captured by the British and brought into Halifax harbor.

DENIED BY MINISTRY.
(Associated Press Telegram)
St. John, N. B., July 28.—J. D. Hazen, minister of marine and fisheries today denied reports that the German undersea liner Bremen had been captured and taken into Halifax. Halifax reports received also declared the Bremen was not there.

FALSE, SAYS DEPARTMENT.
(Associated Press Telegram)
Ottawa, Ont., July 28.—The naval department today denied that there

is any foundation for the story published in New York that the German super-submarine Bremen has been captured and taken into Halifax.

REPORTED IN MAINE.
(Associated Press Telegram)
Portland, Maine, July 28.—A telegram saying the German undersea water merchantman Bremen had been captured and was being towed into Halifax was received in this city today from a Canadian source which was believed to be reliable.

REPORT OF THE CAPTURE CONTAINED IN LETTER RECEIVED IN NEW YORK

(Associated Press Telegram)
New York, July 28.—Another circumstantial report regarding the whereabouts of the German merchant super-submarine Bremen, long expected at some American port is that the ship has been captured by British patrolling squadrons and is today tied up in the northwest arm in the harbor of Halifax, N. S.

The report of the capture, which is published here today, is given in a letter said to have been written by the secretary of a high Canadian official to a business man of this city. The letter is declared to have been mailed from Buffalo, N. Y., two days ago and therefore could not have been subject to the scrutiny of the Canadian censor.

The letter was written in confidence. It is stated but the information it contained was divulged by the recipient to a friend in the course of an argument as to whether or not the Bremen could pass through the British barrier. The letter says:

"You seem in New York to be worried about the Bremen. There is really no cause for worry, for at the present time she is tied up in what we call the northwest arm in the harbor of Halifax and is being well taken care of."

Telegrams of inquiry sent to Ottawa and Halifax have not as yet brought any confirmation of the report. (Continued on Page 2, Col. 1.)

CHILD'S MOTHER TO BE DECIDED WITHOUT DELAY

(Associated Press Telegram)
Chicago, July 28.—Baby Irene, a year old child, motherhood of whom has been claimed by two women, was awarded to the Canadian working girl, Margaret Ryan, by Judge Landis, in the federal district court today.

(Associated Press Telegram)
Chicago, July 28.—Charges of producing a spurious heir and interfering against Mrs. Anna Dollie Ludwig Mitters were dismissed in the state courts today. The charges grew out of the rival claims of Mrs. Mitters and Margaret Ryan, a Canadian girl, to the motherhood of "Baby Irene" whom the former produced as an heir to the estate of her late husband.

After the decision was announced the attorneys and principals went to the court of Federal District Judge Landis, who has heard evidence in a suit begun by Margaret Ryan to obtain possession of the child through a writ of habeas corpus. Mrs. Mitters' attorneys announced that they would make no defense and Judge Landis said he would render his decision as soon as the baby was produced in the court.

GREATEST FOREIGN TRADE YEAR IN HISTORY OF THE U. S.

Washington, July 28.—Foreign trade of the United States closed its greatest year in history, June 30, with a balance of \$2,136,000,000 in favor of American exporters. The year's exports aggregated \$4,334,000,000, the department of commerce today announced and imports were valued at \$2,198,000,000. The trade balance was double that of 1914 and four times that of 1914. Exports exceeded those of last year by \$1,500,000,000.

Service Faced by the Ohio Guardsmen Now Located at Camp Willis

ARMORY BOARD CANOEELS LEASES

Some Definite Line of Service is In Minds

OF THE ARMY OFFICIALS

Which Make Unnecessary Local Quarters for Militia Companies Which May For Several Months Be Kept In Camp Or Sent to Border—Soldiers Stand Hot Weather Well

(Associated Press Telegram)
Camp Willis, Columbus, July 28.—The heat wave hung over Camp Willis again today and as it settled down the camp took on an air of lassitude. Aside from the prospects of pay for the men of the sixth regiment there was no break in the routine of the day.

At the office of Camp Quartermaster William H. Duffy it was said that there is money available to pay all the troops and the money will be distributed as soon as the commanders of the different organizations complete their payrolls.

Officers of the sixth regiment their payrolls were ready and it was expected that the men would receive their first federal pay late today.

Neither Brigadier General Wm. V. McMaken, camp commander, or Major Robert Mearns, chief mustering officer, received any significant messages today that would indicate what disposition is to be made of the Ohio troops.

There was little drilling, either in the forenoon or afternoon today on account of the heat. In mess shacks the different regimental bands tooted and tuned up practicing for the evening concert which are now given almost daily.

Through the care exercised by the officers the camp so far has been almost free from heat prostration. Only a few minor supplies arrived at the quartermaster's storehouse. A consignment of first aid packets, one of which will be issued to each soldier, was among the most important equipment received.

Upon receipt of these promotions have been made for the second regiment by President Wilson:

Arthur E. Rissler, Findlay, from second lieutenant to first lieutenant—he is city auditor of Findlay.

John L. Watson, Spencerville, from first sergeant to second lieutenant; Edward J. Karst, Findlay, from color sergeant to second lieutenant; Ralph E. Neldhart, Spencerville, from second lieutenant to first lieutenant; Karl P. Abt, from first sergeant to second lieutenant; Frederick I. Rowe, Ada, from sergeant to second lieutenant; Donald C. Warren, from regimental sergeant major to first lieutenant; Frank H. Hume, Lima, from first sergeant to second lieutenant; Guy O. Shaffer, Lima, from first lieutenant to captain; Milo E. Terry, Vanwert, from second lieutenant to first lieutenant; George F. Griffith, Ada, from second lieutenant to first lieutenant; Edwin M. Zecor, Bowling Green, from first sergeant to second lieutenant; George E. McLaughlin, Kenton, from sergeant to second lieutenant.

The Ohio national guard was confident today that mobilization is to be maintained and that they are facing prolonged service either in camp or along the border, in view of the action of the armory board yesterday in negotiating cancellation of leases on the ninety state armories.

Veteran guardsmen see in the project the culmination of outlining of some definite plan for the guard service for the next several months by the army officials which is not being divulged but precludes the necessity of local quarters. The men weigh the statement of Colonel Barger in arriving at this city. Colonel Barger said:

"With the probability of the men (Continued on Page 2, Col. 3.)

Experts Will Be Invited to New York to Join in Fighting Infantile Plague

New York, July 28.—The city health authorities and Mayor Mitchell conferred today in regard to the composition of a list of fifteen or twenty prominent physicians who will be invited to come to New York from different parts of the country and join the battle against infantile paralysis.

The visiting physicians will receive all their expenses and the board of estimate yesterday unanimously voted \$2,000 for this purpose. Commissioner of Health Emerson said that he hoped to hold the conference on Thursday or Friday of next week.

On account of the attention this disease has received lately throughout the United States, Commissioner Emerson expects that this meeting will develop many new and important suggestions for stopping the spread of this epidemic.

The epidemic of infantile paralysis is still unchecked, the daily report of the health department shows. The bulletin issued today discloses a slight increase in deaths and a small decrease in the number of cases. During the 24-hour period ending at 10 a. m. today there were 184 new cases and 24 deaths from the disease, reported to the health bureau of New York City.

NEWARK SEES HOTTEST DAY IN 10 YEARS

Firemen at headquarters declare yesterday was the hottest day in ten years. For the first time since temperature records have been kept by the firemen, the thermometer in front of the building reached the 100 mark. Five days this year the thermometer has registered 97 or above and there have been many days with a temperature of 90 degrees or more.

The headquarters thermometer, while not entirely protected is never in the direct rays of the sun in the afternoon. For a short time in the morning the sun shines on the tube. An instrument placed directly in the sun's rays yesterday afternoon reached 130 degrees and filled the tube. The firemen immediately took it away to prevent its bursting.

HOT AT SUMMIT. Summit, O., July 28.—The hottest day of the year was recorded here yesterday afternoon when the thermometer reached 103. It was necessary for a number of farmers to suspend work until the sun had gone down. No prostrations, however, were reported.

KIDDIES' BIG FROLIC WILL BE SUCCESS

Much interest is being taken in the forthcoming picnic for the youngsters of the city, to be given under the auspices of the Newark Automobile club on Thursday, Aug. 17, at Buckeye Lake park.

The newspapers of the city were scarcely off the press before members of the committee were receiving telephone calls asking about the arrangements, and then contributions began pouring in. Following is a list of those who have contributed for the picnic to date:

Licking County Creamery	5.00
J. T. Lewis	5.00
M. J. Reese	5.00
W. C. Metz	3.00
American Tribune	5.00
Advocate	5.00
C. C. McGruder	3.00
Will H. Miles	5.00
Eugene Moore	3.00
J. E. Brownfield	3.00
C. L. V. Holtz	3.00
J. R. Fitzgibbon	5.00
J. V. Hilliard	3.00
Harry D. Baker	5.00
B. G. Smith	3.00

Three hundred little kiddies are going to have the time of their lives on the above date and in addition to the big picnic dinner will be given a boat ride and many other amusements. The children who will participate in this picnic are those whose father, mother or brother does not own a car. In fact many of the children haven't even any father or mother. They are luckless little ones. Perhaps you've seen them as you drove by gazing wistfully at the fast flying car, stopping their play and watching until you were out of sight, remarking to one another, "Gee, I wish I could take a ride once."

Have you ever felt that you'd like to give some of those little fellows a ride with you, that you'd like to show him a good time, such a good time that he would remember it for days and days to come?

Well, you can do this on the kiddies picnic day. Just call up the chairman of the committee, Dr. J. T. Lewis and tell him that you want to be one of the big brothers on Thursday, Aug. 17, and offer your services as chauffeur together with your car.

The cars will leave from the Newark Auto club headquarters in the Hunter and Baker block at nine o'clock in the morning and make the run through to the lake, returning at 4 in the afternoon.

being away from their home stations for some considerable time it is useless for the state to keep up this expense.

"It was pay day up at the camp and the submersible guards came to town," a provost guard said last night, misquoting Robert Service, as guards armed with rifles patrolled the downtown streets in view of expected hilarity following pay day yesterday when \$50,000 was issued to the men. Though the expected celebration developed to a certain extent, the officers in command of the provost guard reported today that the men were generally orderly and only a few instances occurred to require the attention of the provost guard, which will remain in camp on the state house lawn until further orders. The provost guards carried loaded rifles and walked sentry post through the crowds last night, lending a military touch unusual to the street turnout.

The guards are enduring the heat well, and though Camp Willis is declared to be the hottest spot in the state, none of the men have broken under the temperature so far.

**Efforts Being Made to Unionize All
Motormen and Conductors by
National Officers.**

(ASSOCIATED PRESS TELEGRAM)
New York, July 28.—The national organization of the street railway employees today continued efforts to unionize all the motormen and conductors of New York City. Its leaders predicted that if the street railway company did not yield to their demands in the Bronx and Westchester county, the strike in those districts would spread through the city.

Officers of the carmen's organization said that arrangements for the fight in New York had been in progress for several months and that a fund of \$750,000 was on hand for use in the event of a general tie up on subway, surface and elevated lines.

Edward A. Maher, Jr., general manager of the union railway company declared that with adequate police protection the strike would be broken by Saturday. He denied that there was danger of the strike's spreading.

No attempt has been made to fasten on the strikers blame for the fatal accident that occurred in the Bronx late last night. In this accident a strike breaker acting as motorman was killed, and two policemen and three strike guards employed by the railway company were hurt. Their car jumped the track and struck an iron pillar and five minutes later three empty cars in some mysterious manner crashed down a steep hill and crashed into the wreckage.

There was no further disorder in the early hours of the forenoon. Company officials announced that forty cars were in operation. Each car was guarded by policemen and there was no attempt by strikers or sympathizers to create demonstrations.

**STREET CLEANERS,
PARK ATTENDANTS
JOIN THE STRIKE.**

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, July 28.—Reports to Mayor Joseph G. Armstrong today indicated that every man in the street and park cleaning bureau had joined the strike inaugurated by their leaders earlier in the week to enforce a demand for an increase in wages of five cents an hour, bringing the number of strikers to 1100. Not a street or park has been cleaned since Wednesday and in some sections conditions are rapidly taking on a serious aspect.

In the Hazelwood district, where there are five cases of infantile paralysis, appeals of the health authorities for volunteer water wagon drivers to flush the streets and prevent the spread of the epidemic has met with no response from the strikers. No money will be available for higher wages in this department until next year, and city officials said that if the men did not return to work tonight others would be employed to take their places tomorrow.

**STRIKE THREATENED
ON LAKE STEAMERS
BY SEPTEMBER 1.**

(ASSOCIATED PRESS TELEGRAM)
Cleveland, July 28.—A strike of 10,000 seamen, firemen, oilers and cooks on the great lakes September 1 is threatened unless vessel owners accede to demands to be fixed by vote of three unions concerned next week, it was admitted today. Union officials who claim to have organized 65 per cent of the able seamen of the lake say a strike would result in a complete tie-up of traffic on the lakes.

The men are demanding higher wages and shorter hours. They want a "three-watch" system, equivalent to an eight-hour working day, instead of the present "two-watch" plan. Wage increases from \$2 to \$2.50 a day for able seamen, \$35 to \$50 a month for ordinary seamen and similar advances for cooks, firemen and oilers are asked.

The International Seamen's Union, Marine Cooks and Stewards Association and Marine Firemen, Oiler and Boiler Tenders Association are co-operating in the matter.

**OHIO POLITICS
IS DISCUSSED
BY PRESIDENT**

(ASSOCIATED PRESS TELEGRAM)
Washington, July 28.—Political conditions in Indiana and Ohio were discussed by President Wilson today with Senators Kern and Pomerene.

The President is preparing to pay particular attention to the campaigns in those states. The senators told him the outlook was good and that passage of the rural credits bill would help.

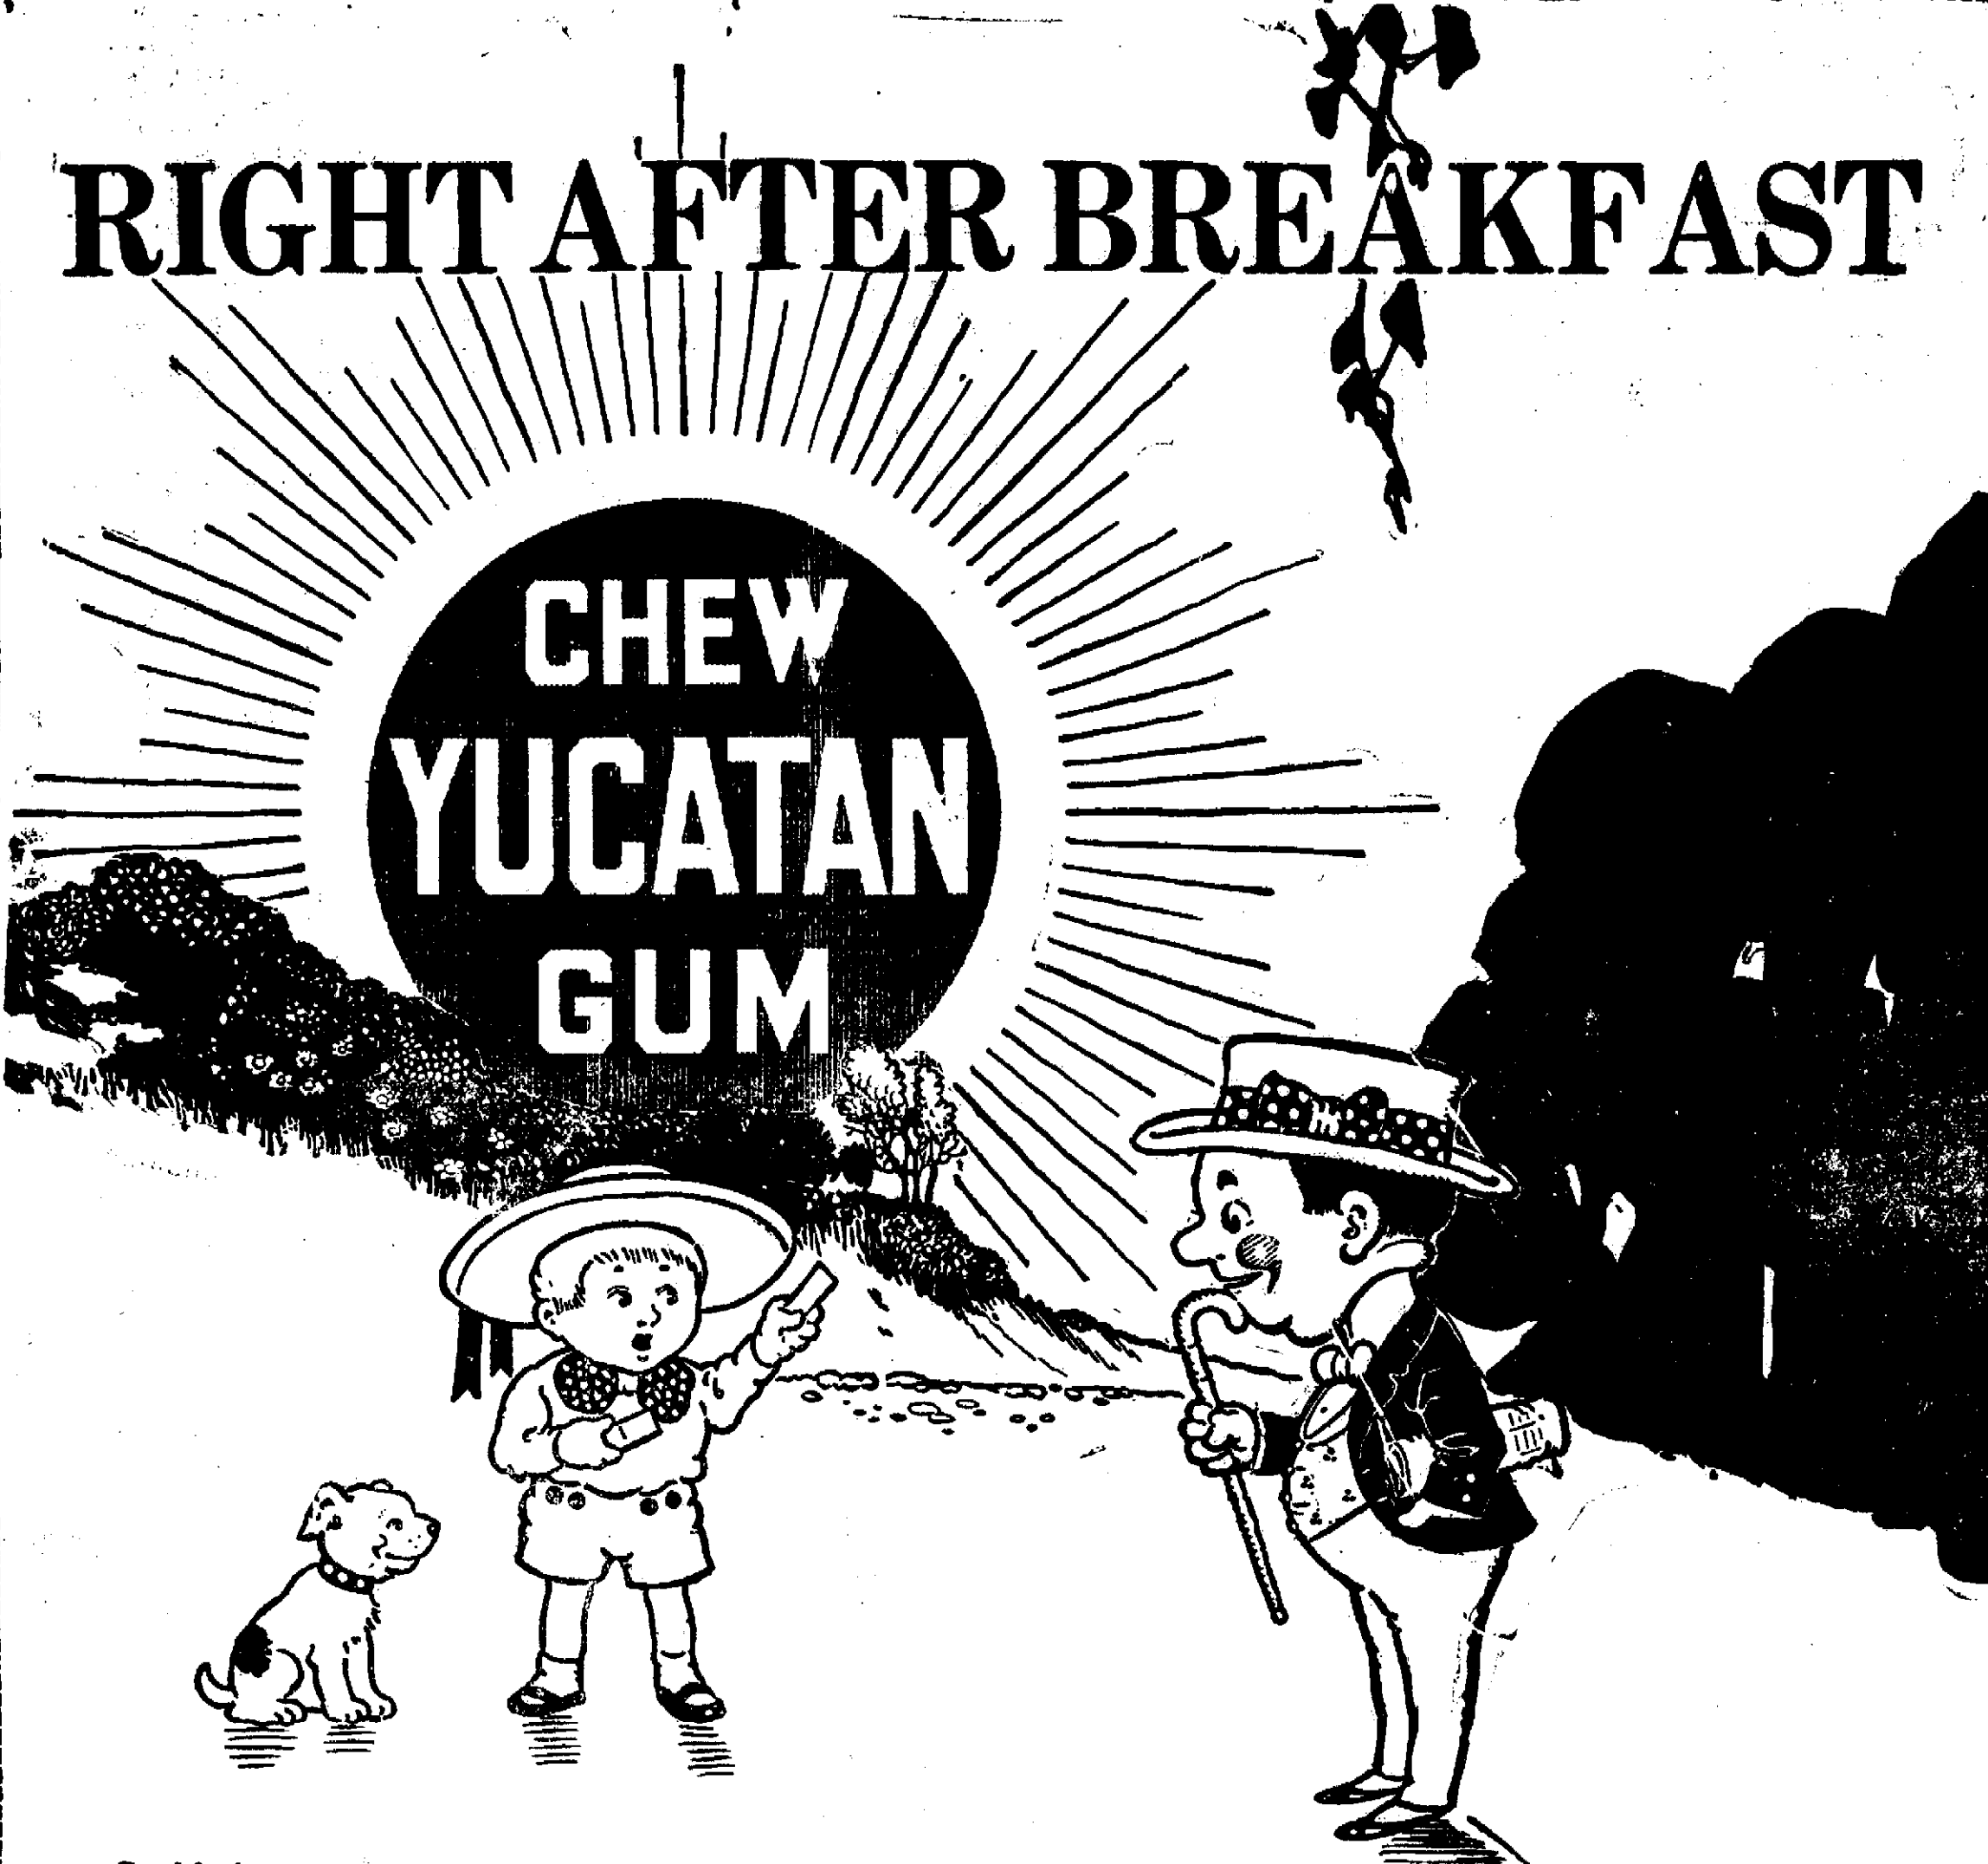

Selection of a United States district justice in Ohio to succeed Justice Clarke, now on the supreme court, also was talked over at the conference. Edward S. Wertz, district attorney for the Northern district and W. E. Young of Akron are among the men being considered.

**CASEMENT WILL
MAKE NO APPEAL
FROM SENTENCE**

(ASSOCIATED PRESS TELEGRAM)
London, July 28, 12:10 p. m.—When the court of criminal appeal met today to hear "a possible application" in behalf of Roger Casement, who was sentenced to death for treason in connection with the recent Dublin uprising, it was found that the defense had abandoned any contemplated action.

Arthur Power, who had been engaged to argue the appeal in the house of lords if the attorney general's fiat had been obtained, said the court had been so informed a few days ago.

Health of Immigrants.

People familiar with alien life in
this country remark on the pathetic
physical decline that they so often
undergo. They come over here ro-
bust animals, in buoyant health
gained by work in the fields. They
are strong as horses, and brown as
Indians. The women are broad-
backed, well able to dig ditches or
plough the earth.

They haven't the least idea of
conserving their health in the new
surroundings. The majority work
in poorly ventilated mills or mines.
Many live in congested and unsani-
tary tenements. Those that work
on farms fare better, but may not
have the food they need.

At home they had an abundance
of cheap farm products. In this
country they find prices prohibi-
tively high. Intensely ambitious to
save money and return to the
Fatherland when the war is over,
they deny themselves nourishing
meat and fresh vegetables. They
seek consolation for hours of toil
in revelries peculiar to their race,
and indulge immoderately in
strong coffee and cigarettes.

The children of these people fare
still worse. They early learn the
taste of candy, ice cream, and cof-
fee, which the parents feed out
freely to keep the youngsters still.
If they fall sick, a doctor may not
be called until the rigor of death
has set in. Then he is blamed for
failing to save the child.

There is great need for instruc-
tion for these people in their own
tongue on health and sanitation. It
would not be difficult or costly to
provide it. Doctors could easily be
found who would be willing, for a
small charge and from public spirit,
to give them common sense talks to
be translated by an interpreter.
The community is vitally interested
in having the second generation
come up a strong and healthy race,
and could well afford to give them
a little help along these lines.

Growth of Advertising.

Any person who has made a care-
ful study of newspapers must be
impressed with their expansion dur-
ing recent years. The writer has in
mind one familiar face among his
exchanges, which 10 years ago used
to print 10 pages. Now it rarely
appears with less than 20. It
prints some more news, but the in-
creased space is principally given to
advertising.

While the merchants are patron-
izing this journal, their business is
increasing from the new trade the
publicity creates for them. They
are growing wealthy through the
power of advertising, and are using

America's Gift to the World

(Christian Herald.)

We Americans have just ground
for being proud of our country. The
size of it is enough to make the
heart beat. How big and varied and
beautiful it is! What rivers, lakes,
mountains, prairies, forests, plains!
What variety of beauty, what range
of climate and soil, and what man-
ifoldness of natural resources! Where
is there a country surpassing us?

But it is not its bigness which
should give us our greatest joy. It is
its greatness. Bigness is an attribute
of matter, but greatness is an attri-
bute of mind. Our country is great.
Our men have made it great. We
have given the world the Declaration
of Independence and the Constitu-
tion of the United States, and we
have furnished a model which shows
how 48 Commonwealths can be com-
pacted into a harmonious and mighty
nation. We have given the world
invaluable lessons in the work of
public education, and have demon-
strated that it is possible to have a
church without a bishop and a state
without a king. The whole world is
our debtor. From the beginning we
have been a world power, influencing
the political life of many lands.
They who date the birth of our
world power only 18 years back do
not understand what has happened
in the world since the days of
Washington. And best of all, we
have kept our doors open, and have
allowed the multitudes from many
lands to come in, showing a hospi-
tality and a generosity without par-
allel in the whole history of the
world. The history of America reads
like a romance. There are pages
which sound like an epic poem.
Who can read the immortal story
without exclaiming in the words of
a Hebrew prophet: "He has not dealt
so with any people!"

Knowledge Pays on Farm.

(New York World.)

The farmer of the oldtime humor-
ists bore a shrewd understanding of
the value of knowledge. These posses-
sions, with some acres of ground and a
few parcels of seeds, constitute the main
equipment of the agriculturist pic-
tured by the limited urban fancy.
The drawing will necessarily be dis-
torted by the report of the Wicks
Committee, showing that of the
farmers in New York State those
having high school educations make
twice as much, while college men
make three as much, from their
acres as do unpolished tillers of the
soil.

This is, indeed, a new answer to
the old question whether a college
education pays.

Other matters of report by the
committee are that one farmer in
three makes money, one comes out
even, one might better work for
somebody else. One in 28 makes
\$2,000 a year or more out of plow-
ing, sowing and reaping. In this
last particular the farming class un-
doubtedly surpasses in financial
prosperity the class of minor desk
men and small tradesmen which ex-
ists in the cities.

The general conclusion to be drawn
from the Wicks report is that the
farming business is not an occupa-
tion standing by itself in the matter
of requirements for success. Its re-
wards go in larger measure in that
as in other industries to the men
who study how best to deserve them.
Keeping the land busy and profit-
able is far from being an affair of
luck or chiefly of luck and the weath-
er. And the proportion of failures
at farming, being based on human
capacity, is probably no greater than
in other callings in which enterprise
and initiative count highly.

Must Respect Our Neutrality

(Pittsburgh Gazette-Times.)

The British espionage over the
German submarine freighter Deutsch-
land is coming dangerously close to
violation of the neutrality laws.
The activities within three miles of
our coastline, and it is in violation
of our neutrality for anyone to com-
municate to them from our shores
any information of military value.
Yet on Tuesday a British cruiser of
the fleet awaiting the departure of
the Deutschland slipped into Ches-
apeake Bay on a scouting tour. And
British vessels have hovered close to
the German craft in the Patuxent
prepared to warn the warships out-
side the capes when Captain Koenig
ships his moorings. These things are
wrong. We have no interest in the
Deutschland except to see that it is
entitled to our waters. But if we
permit the British or any others of
the entente to violate the law in
their quest of the German submarine
we may find ourselves in serious dif-
ficulty and store up possibilities of
more trouble in the future.

If the United States cruiser North
Carolina and two destroyers which
are said to have orders to lay off the
capes for a time are kept there to
prevent further improper incursions
of foreign war ships into our waters,
a wise precaution has been taken.
They are not there to help the
Deutschland get away; merely to see
to it that the German is not pounced up-
on within three miles of our shore.

Thin Folks Who
Would Be Fat

Increase in Weight Ten Pounds or
More.

"I'd certainly give most anything
to be able to eat up a few pounds
and stay that way," declares every
excessively thin man or woman.
Such a result is not impossible, de-
spite past failures. Most thin peo-
ple are victims of mal-nutrition, a
condition which prevents the fatty
elements of food from being taken
up by the blood as they are, when
the powers of nutrition are normal.
Instead of getting into the blood,
much of the fat and flesh producing
elements stay in the intestines until
they pass from the body as waste.

To correct this condition and to
produce a healthy, normal, amount
of fat, the nutritive processes must
be artificially supplied with the pow-
er which nature has denied them.
This can properly best be accom-
plished by eating a Sargol tablet with
every meal. Sargol is a careful com-
bination of six splendid assimilative
agents. Taken with meals they mix
with the food to turn the sugars and
starches of what you have eaten into
rich, ripe nourishment for the tis-
sue and blood, and its rapid effect
has been in many cases reported re-
markable. Reported gains of from
ten to twenty-five pounds in a single
month are by no means infrequent.
Yet its action is perfectly natural and
absolutely harmless. Sargol is sold
by Evans Drug Co., W. A. Erman,
33 North Third street and other
druggists everywhere and every
package contains a guarantee of
weight increase or money back.

NOTE:—Sargol is recommended
only as a flesh builder and while ex-
cellent results in cases of nervous
indigestion, etc., have been reported,
care should be taken about using it
unless a gain of weight is desired.

Did You Know
That gutta percha is the dried
milky juice of a tree which is
found in the peninsula of Malacca
and the Malay Archipelago? It is
a very large tree, the trunk being
sometimes three feet in diameter,
although it is of little use as a tim-
ber tree, the wood being spongy.
The name, gutta percha, is Malay-
an, gutta signifying the juice of a plant
and percha being the name of the
tree from which it is obtained. The
trees are cut down, and the bark
stripped off; between the wood and
bark a milky juice is found which is
scraped out and, as it hardens,
kneaded into cakes. It is in many
respects similar to caoutchouc, or
India-rubber.

Dr. William Mont-
gomery first noticed that the Malays
used it for making handles to their
knives and suggested that it would
be especially valuable in making
handles for surgical instruments.

The Married Peoples' Dinner club will dine at the Mountbuilders' Country club this evening.

Mrs. William Streck entertained with a dinner party Wednesday noon at her home in Hudson avenue in honor of Mrs. J. S. Whitman, who is soon to move to Wheeling, W. Va. The table was decorated with garden flowers, and covers were laid for eight.

Those present were Mesdames William Moran, Edmund McSweeney, Marion Whitman, S. J. Whitman, Donald Stevens, Bagley, and Miss Fannie Whitman.

Obituary

James Richardson's Funeral.
Funeral services for James Richardson, aged 81, wealthy farmer, will be held Saturday afternoon at the home, five miles southeast of the city. Rev. T. T. Buell of the Jacksontown Methodist church will officiate. Burial will be made in the Lloyd cemetery.

Mr. Richardson was one of the best known farmers in Licking county, having lived in the county since birth. A number of years ago he was a trustee of Licking township. Mr. Richardson died of stomach trouble at his home yesterday afternoon at 1 o'clock.

Card of Thanks.

Supt. and Mrs. Orr unite with the children in the Children's Home in thanking the members of the Neil Avenue M. E. church for their kindness in conveying the children in automobiles to their lawn fete, where a delightful hour was spent. The children greatly enjoyed their treat which consisted of ice cream, cake, lemonade and peanuts. 7-25-1*

The Sick.

Mrs. Nettie Davidson of German street, who was operated on Tuesday for appendicitis, is getting along as well as can be expected. She is at the City Hospital.

Miss Pearl Phillips, employee at the Sherwood hotel, is seriously ill, and is threatened with pneumonia. Dr. H. P. Martin in attendance.

Milady's Boudoir

Beautifying Hands and Elbows.

There never was a human elbow that did not need beautifying. We should be grateful that our elbows are hatched to us in such a manner that we cannot see them well; it would be too discouraging.

Just get a pot of cold cream, a shaker full of almond meal, some hot Turkish towels and considerable elbow grease.

We begin by giving the hands and arms a good scrubbing with warm water, pure white soap and a nail brush. The laundering process to extend to the tops of the arms. A gentle drying. If you please with a bit of soft linen. Be thorough with the drying.

We begin now the massage with cold cream. Creame marquis is usually well adapted to hand and arm massage because it is a thin, smooth cream and is readily eaten up by the skin.

Each finger is massaged separately. The cream is frictioned in to the last possible minute. See that the cuticle about the nails is especially treated. Dig into the knuckles where the household dust loves to gather, seeking secure crevices and hiding spots. Follow with a thorough massage of the backs of the hands and the palms. Very firm the pressure, you can't hurt your hands and arms with too much rubbing, and the stimulation will help forward the good results that are on the way.

Place the right hand like a bracelet around the left arm. Hold it firm and turn the arm forward and back. Begin at the wrist and work up towards the top of the arm. Follow with long, firm strokes from elbow to hand. Work in the sweet-odored oment. Your flesh will eat it eagerly. It will be as if the cells hungered for the soothing oils and the caressing treatment. You can spend 15 or 20 minutes with the manipulations, and they will be moments well invested. Your arm and hand will feel younger and their soft surface will be ample reward for your trouble.

Over the cold creamed surface sprinkle almond meal. This will combine with the cream that remains and will form a paste. Pat in well with flattened palms. Have your best household aid bring big Turkish towels out of very hot water and wring about the arms. The heat will drive in the oils still deeper. Continue with the hot applications as long as you have time to play that way. No fewer than three towels on each arm anyway. More are better.

A rinsing bath of clear water with a little benzoin added will remove the paste. Don't use soap as that is drying and will detract from the good results of the oily treatment. Finish up with a massage with a Turkish towel and a light palm massage with talcum powder. This arm treatment has such a softening effect upon the finger nails and cuticle about the nails that a manicure should rightly follow.

Everyday Etiquette

"Recently I called on a neighbor and she was not at home. Should I call on her again before she comes to see me?" asked John.

"It is not necessary for you to call again because your neighbor was not at home. You have fulfilled your obligation and it is her turn to call on you," answered his uncle.

Granville

[Special to The Advocate]
Granville, July 25.—Despite the protesting heat of Thursday, July 27, there was good attendance at the entertainment in Recital Hall given by Prof. E. P. Johnston, head of the department of public speaking, assisted by Prof. K. H. Eschman, director of Denison Conservatory, each an artist in his line. The program was delightfully varied and served admirably to reveal Mr. Johnston's wonderful versatility. In some magical way, without a touch to his hair or clothing, his whole appearance would change with the intonation of his voice, and he ran the gamut of emotion, from tragedy to lightest comedy, in a way to earn several recalls. Prof. Eschman rendered a Brahms' "Lullaby" with such artistic feeling that he was accorded an encore to which he responded by one of Chopin's exquisite "Preludes."

Mrs. Johnston, who possesses a soprano voice of great purity and sweetness was heartily recalled after the aria, "The Song of the Soul," from "The Climax." The comic duet, "Dr. Pery," by Mrs. Johnston and Mr. Sayer, was greatly appreciated by the audience, and the quartet, "Oh Italia Belovet," from Donizetti, was exquisitely rendered by Mr. and Mrs. Johnston, Mrs. Detwiler and Mr. Curtis.

Below is the program as given: Piano solo, "Intermezzo" Brahms — Mr. Eschman.
"The Were Wolf" (Eugene Field) — Mr. Johnston.

Comic duet, "Dr. Pery" — Mrs. Johnston, Mr. Sayer.
Impersonations — Mr. Johnston.
"Oh Italia, Belovet" (Quartet from Donizetti) — Mr. and Mrs. Johnston, Mrs. Detwiler, Mr. Curtis.

Scenes from "The Rivals" (Sheridan) — Mr. Johnston.
It is hoped that Prof. Johnston may be heard again this fall in recital, when weather conditions may be more in keeping and the vacation people are once more ready for indoor entertainment. His voice is flexible, sonorous and virile, or thin and nervous; deep and vibrant with tragic intensity or high and light with feminine whims and moods.

Miss Fannie J. Farrar, head of the piano department of Denison Conservatory, who has been teaching in the summer school, will leave this afternoon for Willow Brook, Pa., 15 miles from Philadelphia, where she will spend the remainder of the summer.

Mrs. M. E. Stickney has returned from a brief visit with her mother, Mrs. E. E. Bell of Mt. Vernon. Senor Assensio of the Summer school faculty, will leave Granville this evening for his home at West Point, N. Y.

Dr. E. E. Goodell of the Denison Summer school reports that in many ways this has been the most successful session this school has yet enjoyed. The teaching force has been unexcelled for efficiency, the courses well attended and interesting, the students of an unusually high grade and the work accomplished most satisfactory both to instructors and students. The matter of numbers has been affected not only at Denison but in other schools of like character by the Danport (?) law, which allows a student to teach one year without professional work—a fact which has begun to affect the attendance at these summer schools with the exception of O. S. U. The course will be continued here next year—and most of the leading instructors on the faculty will be retained. Dr. Chancellor of Wooster, Dr. Williams of Athens, Prof. Assensio of West Point, and others who will be announced later.

Dean and Mrs. C. E. Goodell expect to leave Granville early Saturday morning for Indianapolis, where they will remain until the opening of the university in September.

How to Judge a Woman By Her Hair

There are always the well-known and semi-humorous methods, such as saying brunettes are quick-tempered or blondes are keener in their mental activity. But there is real common sense in just noticing whether the hair is well kept to judge a woman's neatness, or in looking at her style of arranging her hair, to decide whether or not she has good taste. If you are one of the few who try to make the most of your hair, remember that it is not advisable to wash the hair with any cleanser made for all purposes, but always use some good preparation made expressly for shampooing. You can enjoy the very best by getting some canthrox from your druggist and dissolving a teaspoonful in a cup of hot water when your shampoo is all ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.

BODY OF BOY FOUND.
[ASSOCIATED PRESS TELEGRAM]
Cleveland, July 25.—The badly decomposed body of a boy supposed to be that of Lyle Batzer, 10, of Cleveland, was picked up about a half-mile out side of Fairport breakwater, Thursday night. The Batzer boy, with his younger brother, Clyde and Robert Holly 11, disappeared March 11. It is supposed they went skating on Lake Erie off the foot of East 105th street and were drowned.

WRECKED CARS BURN.

WANTED TO BREAK WOMAN'S JOINTS BECAUSE OF SEVERE RHEUMATISM

Mrs. Ross Tells How She Recovered After Suffering Ten Years. Now Enjoys Outdoor Life and Runs Touring Car Without Assistance.

Reports coming from Rangeley, Maine, of a most remarkable recovery from rheumatism of the joints led to securing the following facts: Mrs. Oscar Ross, widely known throughout this section, suffered from rheumatism for ten years, and during that time was more or less helpless. She is now able to go about without trouble and enjoys herself during the fine weather driving a touring car without assistance.

my joints, and I was about ready to go to the hospital when I heard of this medicine.

"I had tried so many physicians and treatments of all kinds that I was thoroughly discouraged when I heard of this remedy, Var-ne-sis, for ten years is a long time to suffer and a long time to be continually taking medicine and continually growing worse.

"Hearing so much about Var-ne-sis, I decided to try once more, and this is the result. I am now able to go about without an ache or a pain, can go up or down stairs without trouble and give all the credit to Var-ne-sis for my wonderful recovery.

"To other sufferers from this disease, do as I did: pay no attention to anyone or what they say, take Var-ne-sis and stick to it until you are well."

Don't hesitate and become discouraged because you have tried almost everything recommended without relief; that's what nine out of every ten say before they take Var-ne-sis. Don't be timid because you think you can't recover—your body is waiting for you in Var-ne-sis—it is now—today at your druggist's, and know what good health means."

Var-ne-sis is a simple vegetable preparation and does not contain harmful drugs so often given for rheumatism. None produce more like these. Why? Send to W. A. Varney, Lynn, Mass., for the "Var-ne-sis" book. It's free. Var-ne-sis now, today, at your druggist, and all remedies.—Adv.

MRS. OSCAR ROSS

Mrs. Ross said: "It is really remarkable to be free from a life of pain and aches. Only one who has suffered from chronic rheumatism of the joints knows what I had to go through. My hips, knees and ankles were extremely stiff and sore. My knees grated and I was unable to bend them to any extent. It was impossible for me to go up or down stairs, and my husband had to carry me. IRISH MEMBER OF PARLIAMENT TRIED IN POLICE COURT

(Associated Press Telegram)
London, July 28, 12:42 p. m.—Speeches which he had made to prisoners, describing them as martyrs, and demonstrations held by the prisoners when he visited them were given as the reasons by the crown attorney why Lawrence Guinness, Irish national member of parliament for the North Westmeath, had been refused permission to visit Irish prisoners in England when bearing of the charge against him of attempting to gain admission into the Knutsford barracks was resumed in the Bow street police court today.

Laurence Guinness was arrested at the detention barracks at Knutsford on July 15. On being arraigned he protested to the magistrate against his arrest, saying there was no case against him. The name McGinnle, which it was declared he used, was Irish for Guinness, he said, and the whole incident could easily be explained. He was remanded for trial and released under bond. Mr. Guinness yesterday caused a short suspension of the sitting of the house of commons when he refused to withdraw when ordered to do so by the speaker.

Mr. Guinness was fined 100 pounds.

Amusements

The Auditorium.
For the first time since he scored such a marked success in support of Billie Burke in "Peggy," William H. Thompson, the dean of the American stage, will be seen in a Triangle feature when he is presented by Thomas H. Ince as co-star with Anna Lehr in "Civilization's Child," at the Auditorium today and tomorrow.

The veteran character actor, in this production, plays the role of a ward boss, who is responsible for the wrecking of a young Russian girl's life.

"Civilization's Child" is an original story of C. Gardner Sullivan. It deals with the effects of America's "higher civilization" on a little "barbarian," so ignorant that she believes only in good and happiness, and relates, in pathetic detail, the girl's heart-rending experiences in this country.

Auditorium, Friday and Saturday
together with a two reel Triangle face comedy that is sure to make you laugh.

Alhambra Tonight and Tomorrow.
The third photodrama in which Wallace Reid and Cleo Ridgeley are to be co-starred by the Lasky company is "The Selfish Woman," which will be the Paramount attraction at the Alhambra, tonight and tomorrow. This is a pictureization of Hector Turnbull's thrilling story written especially for these two clever stars who scored such a triumph in "The Golden Chance" and "The Love Mask." Sunday, Adele Blood, in "The Devil's Toy."

White Slave Traffic.
For over a year, Mr. Samuel H. London, the former international investigator, has been at work preparing a motion picture which would demonstrate the inside workings of the much discussed and alarming traffic in white slaves. His idea was primarily to show it privately and before especially selected audiences where it might do the greatest good, but upon seeing the result of his work, those most interested in the expose and final extermination of this revolting vice have urged him to permit the public exhibition of this remarkable film in order to assure the greatest possible circulation and scope. It is in many ways the most astonishing picture ever taken and its truth is vouched for by authorities on the subject. This big 5-part feature comes to the Grand east Monday and Tuesday.

PRIEST RESIGNS; WILL GO TO ROME; PARISHIONERS WEEP

Barton, O., July 28.—Rev. Father Frederick A. McEachan, pastor of St. Mary's Catholic church, announced today he would conduct his last services here next Sunday and would leave for Rome next week and later become instructor in the Catholic university at Washington.

Men and women wept during the announcement. Father McEachan's congregation is one of the most remarkable in the world. Its members speak nine different languages, the congregation being composed of coal miners. Father McEachan delivers sermons in all their languages. He was once a coal miner himself and came into prominence for his work of relief of the miners and their families during the 14 months' coal strike in eastern Ohio.

ZANESVILLE SELLS \$394,000 BONDS FOR IMPROVEMENTS.

Thursday noon the city of Zanesville awarded the largest lot of bonds in its history. The total amount of the bond sale is \$394,000. The bonds will be used for two purposes, \$350,000 for the well system of the waterworks department and \$44,000 for street improvement. Both bond issues were authorized at the last election.

MAY ASSIST IN RUNNING DOWN THE MURDERERS

Last August while John Mullen, ("Peanut John") was located at Put-in-Bay where he operated a concession along the "Pike," Frederick H. Schroeder, an aged retired contracting stone mason of Cincinnati was murdered on Stone Point on Put-in-Bay Island. The body was badly mutilated and when spectators were allowed in the morgue to view the remains Mullen recognized the dead man as a person with whom he had talked the day before and was able to inform the authorities as to his hotel, where he was from, etc., and in that manner assisted in the identification. Mullen had also seen three men start out with Schroeder on the night of the murder and always had his suspicions as to the guilty parties.

A couple of days ago ex-Mayor Alexander of Put-in-Bay was notified by Detroit police that William Checkers confessed just before he headed his last that he, with two others, whose names he refused to divulge, had murdered Schroeder at Beach Point. The confession justified Mullen's suspicions and he may be an important factor in assisting in running down the other two murderers. He is again located at the Bay this season operating a concession during the season at that popular resort.

AUSTRIA FAVORS POLISH RELIEF, [ASKED BY WILSON]

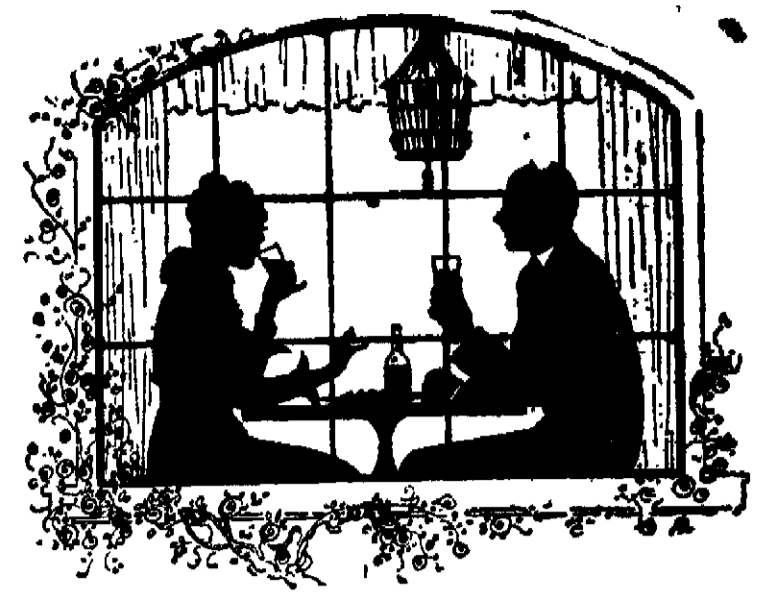

Washington, July 28.—Informal assurances that Austria-Hungary is disposed to respond favorably to President Wilson's personal appeal for permission for shipment of American relief supplies to Poles in territory held by Austrian forces, have been given personally by Foreign Minister Burian to Ambassador Penfield.

The state department also received today from Ambassador Page the British foreign office statement of Great Britain's willingness to permit importations of foodstuffs into Poland to be administered by a commission appointed by President Wilson, provided the German and Austrian occupying armies would not seize or remove products of the occupied territory. The condition, it is feared, may block the negotiations.

Operation not Necessary after Taking the Great Medicine for Women.

Miller's Falls, Mass. — "Doctors said I had displacement very badly and I would have to have an operation. I had a soreness in both sides and a pulling sensation in my right side. I could not do much work the pain was so bad. I was also troubled with irregularity and other weaknesses. My blood was poor. We had been married four years and had no children.

After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I became well and strong and was saved from the operation. We are now the parents of a big baby girl and I praise your remedies to others and give you permission to publish my letter."

Mrs. JOSEPH GUILBAULT, JR., Bridge Street, Miller's Falls, Mass.

Lydia E. Pinkham's Vegetable Compound is famous for restoring women to normal health and strength. When this is done wives no longer despair of having children.

HIGH DIVERS AT SWIMMING POOL, INTEREST MANY

With the continuance of the hot weather the crowds which go swimming at the water works dam have increased, and those of the stronger sex have been developing a predilection for high diving, many of them climbing the bridge to the height of 40 feet over the water, vying with one another in daring. From this height they spring outward 15 feet over the cement dam, and submerge themselves in the rapid torrent that flows through the open sluice gate. At no place in the pool is the water over the head of a man six feet in stature, but the rapidity of the water at the point the high divers have selected lessens the possibility of injury in the bed of the river. So swift are the waters at this point that the diver is carried down stream as soon as he hits the surface, and washed into the shallows where the water is only up to his waist in depth.

But, to the observer, there seems to be little danger in diving from the bridge, as it is necessary for the diver to jump 15 feet or more to clear the dam and light in the water. During the afternoon, as many as 20 youths at a time can be seen waiting on the bridge for a chance to dive. Many of them only clear the dam by three feet, and if they struck the cement instead of the water, injury would be certain, and permanent physical disability or loss of life probable.

Although the dressing rooms are inadequate, and pool is always crowded during the late afternoon, the attendance is increasing daily, and the "swimming hole" is fast becoming one of the most popular points around the city.

ALICE NIELSEN WON HER RACE AGAINST TIME

What is said to be a world's travel record for singers was established last February when Alice Nielsen, prima donna soprano, sang in San Francisco on Friday night and in Boston on the following Thursday night. Her 3000-mile race was won with about four hours to spare.

Miss Nielsen sang the lead in "The Tales of Hoffman" in the California metropolis on Friday night and left the following morning for the East. Her train was due to reach Boston on the following Wednesday afternoon at 3:00 o'clock. Coming through the Rockies it began to lose time, and it was three hours late at Denver. At Chicago it was ten hours late. Storms, wrecks and other elements contributed to delay it, and Miss Nielsen saw the twenty-four hour leave whittled down to ten hours, then to eight and then to five.

She expected to reach New York from the West in time to get the night train for Boston, arriving there at 7:00 o'clock Thursday morning, but her train did not get into New York until past midnight, so she went to her apartments in the Metropolitan Opera House Building and spent the night, taking the 10 o'clock train from New York the next morning. She lost twenty-four hours during the trip, but arrived in Boston several hours before the concert.

Miss Nielsen is to appear here Tuesday, August 8, the closing night of the chautauqua, Hudson avenue.

WALSH SAVES GIRLS. (Associated Press Telegram) Chicago, July 28.—Ed Walsh, pitcher for the White Sox, is being congratulated today on his ability as a life saver. While bathing in Lake Michigan at 50th street last night he rescued two girls who had fallen into deep water from a raft which was overturned.

NEW COURTS AT WHITE FIELD ARE POPULAR

With five new courts placed in condition for Newark tennis players, this game is growing more popular every day for old and young. When White field was opened, three courts were provided. These soon proved to be inadequate. One was added last year and another this spring, and within the past few weeks all five of the courts were reconstructed with money provided by the class of 1914, Newark High school.

A great quantity of time clay from Cedar street hill, the best available in the county for court making, was hauled to White Field and four of the five courts were dug out to a depth of five or six inches and this clay applied, raked and rolled.

While the courts this summer are not as fast as they might be, daily sprinkling and rolling are doing wonders to improve the courts and in time they will not be surpassed by any courts in Ohio.

And none of these courts lie idle very long during the time the field is open. Players of all ages, from five years to — There actually is one five year old tot who is making many of his older hustlers when they take him on as a playing partner.

These courts are developing some clever players and all these boys and young men will be placed on exhibition soon in a tennis tournament to be arranged by Supervisor Stimson. It is planned to start this tournament next week. It will require several days probably more than to complete the elimination contests and bring the tournament down to the contest which will decide the championships for singles and doubles.

Supervisor Stimson says that some days as high as 100 people use the courts. They are available for all ages. Many business men have availed themselves of the opportunity to know their youth on the tennis courts. Mr. Stimson says that he will find a court for business men anytime they want to play. Boys and girls are quick to give up courts to newcomers and there should be no trouble for the busy individual to get a court at any hour of the day.

The other equipment in the play ground is seldom idle. The grove along Racoon creek is a favorite place for family pictures in the evening and a half dozen little groups with baskets may be seen most any evening, enjoying the cool shade of the grove and the pranks of the youngsters who frequent the grounds.

GRIP AND NEURASTHENIA

There is a form of neurasthenia that follows the grip. Doctors call it "post-grip" neurasthenia. One of the foremost medical authorities of New York city in a lecture in the international clinics, said:

"Broadly speaking, every victim of the grip will suffer from post-grip neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."

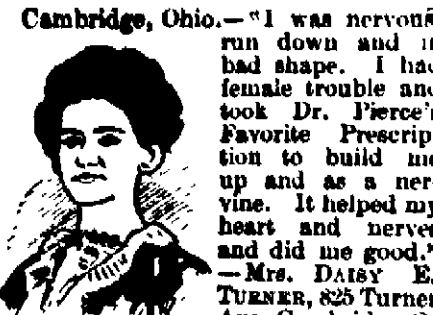

Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of the grip. The rich, red blood expels the lingering germs from the system and transforms despondent grip victims into cheerful, healthy, happy men and women.

If you have had the grip get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.

On request we will send you a free pamphlet, "Building Up the Blood," which contains a chapter on the grip. Address the Dr. Williams Medicine Co., Schenectady, N. Y.

NERVOUS WOMEN.

IT'S THE SAME EVERYWHERE IN OHIO.

Cambridge, Ohio. — "I was nervous, run down and had female trouble and took Dr. Pierce's Favorite Prescription to build me up and as a nerve. It helped my heart and nerves and did me good."

Mrs. DARY E. TURNER, 825 Turner Ave., Cambridge, O.

Dr. Pierce's Favorite Prescription is and has been for over forty years just the medicine that every woman needs when passing through the changing days. It is not a secret prescription, for its ingredients are printed on the wrapper; it's a temperance medicine.

Not only does it build up the entire system and make it strong and vigorous enough to withstand the organic disturbances, but it has a quieting effect upon the feminine organism that reduces the distress to a minimum.

For any womanly ailment, disease or complaint, no matter of how long standing, we advise anxious women to get Dr. Pierce's Favorite Prescription, in either liquid or tablet form.

THIS BOOK EXPLAINS.

If you will send three dimes or stamps, to pay for wrapping and mailing, and enclose this notice, Dr. Pierce, of the Invalids' Hotel, Buffalo, N. Y., will send you a revised copy of his Common Sense Medical Adviser, in cloth binding, 1008 pages, with color plates. Just what you need in case of sickness or accident. Treats of Physiology, Anatomy, Sex problems, Marriage relations, Hygiene, Exercise, Disease and its prevention.

25 Years Ago

(From Advocate, July 28, 1911.) Councilman W. H. Farrish got up this morning to find that his valuable bay mare was missing from his stable on Church street. He reported the matter to the police but it is thought the door had been left open as the mare went to its former home.

Mr. and Mrs. W. G. Fleming have returned from a pleasant visit to the home of the former's mother, Mrs. B. C. Fleming at Nashport, Ohio.

Mrs. Chancey Traxler and family, Mrs. E. Moore and daughter, Neva, Mrs. Louis Flory and Miss Zoia Coffman are spending the week in Sandusky and Lakeside.

15 YEARS AGO

(From Advocate, July 28, 1901.) The residence of Rev. Frank Graustat, on North Second street was entered by burglars some time during the early part of Sunday evening. Nothing was taken but the house was terribly upset.

Mr. T. J. Hughes, who has been sick for some time past, is able to be about again.

Mr. Will Davis, the young farmer residing west of the city who was overcome by heat last week is now much improved.

10 Cents

I am a portrait painter.

When I paint a man's picture I give him "Helmar" Turkish cigarettes to smoke.

"Helmar" puts the natural happy expression on his face, and keeps it there.

I smoke "Helmar" and so does nearly every artist I know.

"Helmars" are artistically fine.

The mildest tobacco for cigarettes is Turkish.

The best tobacco for cigarettes is Turkish.

Don't pay ten cents for anybody's cigarette until you have tried "Helmar," a fascinating, elevating, gentleman's smoke.

VALENTINE GETS SLICE EACH PURSE

GRAND CIRCUIT DRIVER LANDS WITHIN MONEY IN THREE EVENTS

Grand Chimes Wins Ponchartraine Stakes of \$2000—Box R Easy Winner in 2:10 Pace.

(Associated Press Telegram)

Detroit, Mich., July 28.—Today was set away day at the Grand Circuit meeting here and as the attraction there were four events carded, each with a purse of \$2000. The first of the day was the 2:05 trot with six fast ones entered. There also were two fast fields entered in the events for 2:35 and 2:47 paces.

The other race on the program was the 2:12 trot. Some of the best and fastest racing of the week's program was seen at the Grand Circuit meeting here yesterday. The free-for-all race, headlined on the day's card, was the first to be run.

The first two heats and finished second to Russell Boy in the third. The judges imposed a fine of \$100 on Driver C. A. Gossell for not giving out the third heat with Single G.

In the first heat Single G went into the lead at the half and held it to the finish, with Braden Direct and Russell Boy so close together a few lengths back that only the judges could place them, respectively, second and third. This heat was the fastest of the week, 2:00 3/4, and the last half of it was covered in 58 seconds flat.

Single G led all the way around in the second heat and although pressed by Braden Direct in the last few rods, won shoulders ahead.

In the third mile Single G took the lead at the start and held it to the last turn. Here Russell Boy seemed to have more in reserve than a driving finish, with Single G second and Valentine's Judge Ormonde third.

Grand Chimes, although winning only one heat in the Ponchartraine stakes of \$2000 for 2:15 trotters, got the decision under the placing system, having the best standing in the final summary.

The winner of the day's final summary, North Randal last week led all the way around in the second heat and, although the field closed up to him in the last turn, he easily pulled away and won by three lengths.

Early Don of the Valentine stable took the first heat with little trouble, easing up at the finish. Busy Lassie and Grand Chimes staged a great battle for the third heat, turning in the stretch neck and neck. They held this position to within 100 feet of the finish, where McDonald swung Lindsey out from behind them and pulled into victory by a head.

Box R took three heats of the Hotel Griswold \$200 stake for 2:10 paces with ease. He showed his class in the second heat, taking the going easy to the last turn, where Valentine let him out. Here he left the field at least 50 feet behind and won easily up, summary:

WALNUT MAID EQUABLE RECORD FOR 2:24 TROT.

Lima, July 27.—Walnut Maid created the sensation of the closing day of the Lima races when she equaled a world's record during the 2:12 trot, making the round in 2:12 1/4, equalling the world's record for 3-year-old fillies on a half mile track.

After a good workout had in the fourth in the first heat and seemed a sure loser he won the three last heats and the 2:12 trot.

What's the Answer?

He—And what do you want for your birthday?
She—Really, I don't want anything. But I know you will buy me something terribly nice and expensive and new, you're such a dear, reckless boy.—Tiger.

ARE PLANNING
AN INTER-CITY
PICNIC AT LAKE

Zanesville, July 28.—A committee made up of officers and directors of the Muskingum Motor club has been appointed to meet with a like committee from the Newark Automobile club Friday afternoon at Buckeye lake to complete arrangements for the proposed big inter-city autoists' picnic at Buckeye Lake all day, August 24.

A committee from the Newark club recently visited local officers and proposed the picnic are announced. It is understood that every auto owner in Licking and Muskingum counties will be given an invitation to the affair. It is hoped this will be one of the biggest events for autoists held this year in these counties.

The following are on the committee which will leave here Friday afternoon in autos for Buckeye lake: W. E. Deacon, A. J. Senhauser, I. B. Hays, W. E. Heimick, Dr. C. U. Hanna, Dr. W. A. Melick, P. R. Behmer, Otto Wendell and J. R. Johnson, secretary of the local club. The committee from Newark will be composed of Colonel W. C. Wells, M. J. Reese, Dr. J. T. Lewis, and H. D. Hale.

The Newark committee left for the lake at 4 o'clock this afternoon where they will be dinner guests, together with the Zanesville committee of the Buckeye Lake Park lessees, Messrs. Defenbach and Capt. Del Fisher and Col. W. C. Wells. At that time plans will be formed for the big inter-city picnic and a program will be arranged. The affair undoubtedly will attract the largest crowd which has ever gathered at Buckeye Lake Park.

U. B. CHURCHES
HELD PICNIC AT
MOUNDBUILDERS'

The United Brethren churches of Licking county, together with the Sunday schools and Christian Endeavor societies enjoyed a great day's outing at the Licking county fair ground, yesterday.

About 500 persons were present and nearly all the organizations were represented; the attendance and interest in these yearly union meetings is growing each year, and the next meeting was set for the fair ground on the first Thursday in August, 1917.

The forenoon was spent in athletic games and contests, and a big basket dinner was spread at the noon hour.

The afternoon session was of a literary nature with J. W. Shannon presiding; the speakers were Rev. W. F. Harbert, of Wellston, Rev. E. E. Harris of Westerville, and Attorney Andrew S. Mitchell of this city; Rev. Harbert spoke on "Boosting the Sunday School," Rev. Harris on the "Christian Endeavor Work," and Mr. Mitchell on "What the Licking County Sunday School Association Will Do." All the addresses were excellent and well received.

Vocal selections were rendered by the East Main street, the Tenth street, Jackson town, Amsterdam, Mt. Hermon and other church organizations. A history of the Licking county churches was read by Mrs. Virtue Rodgers.

The Newark high school band of ten members rendered an excellent concert at 4 p. m.

A base ball game between the city churches and the country and village churches resulted in favor of the city folks, but the "Hoosiers" promising coming for next year.

The following officers were elected for next year: President, J. W. Shannon; vice president, Fred Baughman; secretary, Stacy Conrad; treasurer, Lawrence Hughes, with the following executive committee, Samuel Swartz, Rex Poff and Mrs. Fred L. Courson.

The Tenth street church created a great deal of interest with their special song and school yells.

Two new churches and two Sunday schools and two C. E. societies have been organized during the year.

NEWSBOYS OF
TOLEDO ENJOY
A FIELD DAY.

(Associated Press Telegram)
Toledo, July 28.—Twenty-five hundred Toledo newsboys were ready at dawn today for their annual field day celebration. For once in the year the news merchants left the public get its papers the best it could. Forming in line at 8:30, the newsies paraded downtown streets. Special cars later took them to a Lake Erie beach where they were treated to a dinner. Athletic contests with many prizes featured the afternoon program. Featured the afternoon program was a ball game between members of the Commerce club and the Newsboys was expected to be hotly contested.

TOLLS COLLECTED
MUCH LESS THAN
CANALS EXPENSE.

(Associated Press Telegram)
Washington, July 28.—Panama canal tolls were \$4,438,551 less than expenses in the year which ended, May 31. In the months the canal was closed by slides the losses ranged between \$446,000 and \$643,000 a month, totaling for the six months from October to March inclusive, \$3,552,627. Tolls collected during May amounted to \$368,023, the largest month since August, 1915.

NEW PRESIDENT
SANTO DOMINGO
SALES FOR HOME.

(Associated Press Telegram)
Havana, July 27.—There being no passenger steamer leaving Santiago for Santo Domingo the Cuban government today ordered the navy school ship Patria, which is now lying at Santiago, to convey Federico Henriquez Carvajal, who was yesterday proclaimed provisional president of Santo Domingo home. The president's family will accompany him.

FINAL DAY OF
DENTISTS' MEET
AT LOUISVILLE.

(Associated Press Telegram)
Louisville, Ky., July 28.—The morning hours of this, the final day of the Twentieth Annual Convention of the National Dental Association, were occupied with several sectional meetings and clinics.

This afternoon the convention will be brought to a close with the installation of the officers elected by the house of delegates, the governing body of the association to serve during the ensuing year.

One of the most important of the meetings held this morning was that of the national association of dental examiners.

LINE BARRICA
MUST BE MARKED;
AGREE ON BILL.

Washington, July 28.—The conferees on the standard line barrel legislation of whom Representative Ashbrook is one, reached an agreement yesterday. A standard small barrel is to contain 150 pounds net and a standard large barrel 250 pounds net and each must have the exact contents marked on the head of the barrel, together with the name of the manufacturer, place where manufactured, and, if imported, the name of the country from which it came.

FRECKLE FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

"Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

NOTICE

All water bills rendered and remaining unpaid July 31st will be delinquent and according to the new rule published July 1st are to be shut off without further notice.

A charge of \$1.00 for the expense of turning off and on is in the rules as adopted in 1911 and our instructions are to collect it.

EXECUTION
(Continued from Page 1.)
Brussels for an alleged attempt to
run a submarine is regarded as a
violation of international law likely
to result in prompt restitutory measures
by Great Britain. They contend that
if a hostile submarine approached the
Brussels it was in effect an at-
tack and Capt. Fryatt in making a
counter-attack by attempting to ram,
subjected himself only to treatment
as a prisoner of war in event of cap-
ture.
The United States government is
interested in the incident and what
may follow it particularly because
of the bearing it may have upon the
difficult problem involved in subma-
rine warfare which in the past have
brought the country to the brink of
war, because it is charged with the
care of interests of prisoners on both
sides.
**MEXICO DISCUSSED
TODAY BY CABINET
FIRST IN WEEKS.**
Washington, July 28.—Mexico
was discussed by the cabinet today
for the first time in several weeks.
Acting Secretary Polk reported on
his conference with Eliseo Arre-
dondo, the Mexican ambassador des-
ignate. It was indicated that Mr.
Arredondo might be summoned to
the state department later today to
receive President Wilson's final de-
cision on General Carranza's plan
for appointing a joint commission
to adjust differences. General Car-
ranza is understood to have accepted
in part at least, the department's
view of what should be the scope of
the proposed commission's authority.
**BEAT STRIKEBREAKER

SENTENCE FROM COURT.**
New York, July 28.—That they
shall support the family of a strike
breaker they admitted having beat-
en and shall obtain employment for
him when he is well enough to work
again, was the unusual sentence im-
posed upon two Brooklyn men by
Judge Fawcett today. During a
strike of painters and paper hang-
ers last spring, Charles Dietz was at-
tacked and so badly pummeled he is
still a physical wreck. Daniel Bron-
stein and Harry Swinoff were ar-
rested and appeared in court today.
They pleaded guilty to assault.

Collides With Buggy.
An automobile driving south in
North Fourth street last evening col-
lided with a buggy hitched along the
curb and which belonged to William
Markham of Wehrle avenue. The
driver of the machine claimed that
the car being dimmed prevented
seeing the buggy until the machine
was only a few feet away. There was
no one in the buggy at the time. The
rear wheels were broken.

Fingers Amputated.
Joshua H. Evans, aged 68, glass-
worker at the American Bottle com-
pany, while in the factory at 8
o'clock this morning, had his right
hand run over by a truck, and the
first three fingers were severed. He
was taken to the Sanitarium, where
his injuries were dressed. Other
than the injuries already incurred,
no serious consequences are expected.
Mr. Evans resides at 417 North

Chatham Up-Lift Day.
Thursday, August 3, will be the
third community Up-lift day at
Chatham. The two gatherings that
have preceded this one of next week
were most successful and there is
every reason to believe that this
year's program will be equally good
and highly successful. Everybody
is invited to be on hand early to see
the parade and participate in the
pleasures of the day. Rev. Frank
Gilliam is the president and W. B.
Eshelman secretary of the organiza-
tion.

Jewett Cars En Route.
Three new all steel cars manu-
factured by the Jewett Car company,
passed around the public square to-
day at 11 o'clock. The trip around
the city streets was to show the peo-
ple of Newark the kind of cars that
are now built in this city. The cars
are part of an order of 15 interurban
cars which will shortly be delivered
to Northern Ohio Traction and
Light company at Akron. The three
left for Akron this morning with
train crews of the traction company.

**WIFE GRIEVES
OVER HUSBAND'S
DISAPPEARANCE**
(Associated Press Telegram)
Cincinnati, July 28.—Because the
wife of his friend weeps constantly
and has worried herself into a ser-
ious condition over the disappearance
of her husband, Henry W. Connolly,
of Lakeland, Fla., travelled over one
thousand miles to this city with the
hope of finding Charles R. Rice.
The last heard of Rice was during
the latter part of June when he
wrote that he was at the Rand hotel
in this city. Connolly called upon
the police department and asked
that the police assist him in his
search. "I'm afraid that if he isn't
soon found his wife will die of
grief," said Connolly. So every de-
tective at roll call today wrote Rice's
description in his private memoran-
dum book.
**Absent From Home
Five Years; Welsh
Now In Hospital**
A special telegram to The Advoca-
te this afternoon from Ashtabula
says:
"Albert Welsh, age 24, injured in
an accident here Wednesday, lives at
234 Hoover street, Newark. His fa-
ther is August Welsh, a glass cut-
ter. Welsh says he has not been
heard from his parents in five
years. His condition today continues
to be favorable."
Welsh lost his left leg and suf-
fered a broken right arm. He went
to sleep under a car.
The first name should be Al-
phonse. It is probable that he gave
his name to the hospital authorities

saying that he was in good health.

**R. W. SMITH'S AUTO
STOLEN ON SQUARE;
POLICE HUNT CAR.**
R. W. Smith, druggist at Second
and South Park place, reported to
the police this morning that his O-
verland car had been stolen from his
place of business sometime during
the night. Police in nearby towns
were notified to keep a sharp look-
out for the car which bore Ohio
license tag No. 102,359. The ma-
chine was No. 67954.
Mr. Smith and his son both used
the car last night and each depended
upon the other to drive it home. For
this reason the hour of the theft is
not known. Police this morning
made a search of the outskirts of
the city in an effort to locate the
car, on the theory that it may have
been "borrowed" for a short joy
ride. The search was unsuccessful.
Late this afternoon Police Chief
Sheridan received a message from
the Columbus police department say-
ing that Mr. Smith's automobile had
been found in front of the City Hall
in State street about noon. Mr.
Smith will go to Columbus this even-
ing after the car.

**STATE HOUSE
IMPROVEMENTS
WILL BE MADE.**
(Associated Press Telegram)
Columbus, July 28.—Impro-
vements in the state house entailing
a total expenditure of \$10,000,000
are being contemplated by the state
building commission. It was an-
nounced today following discovery
by members of that body of a clause
in the law which created the com-
mission empowering them to take
such action.
Repainting of the inside of the
dome, the installation of sanitary
drinking fountains in the rotunda
and new comfort stations are among
the improvements for which bids
will be advertised within a few days
it was announced.
**NEAL AVENUE
FESTIVAL WAS
BIG SUCCESS**
The festival given by the men of
Neil Avenue M. E. church last even-

particular and a handsome sum was
realized for the church treasury.
Over 1800 were in attendance and ice
cream, cake, pop, lemonade, pop
corn and candy were served, a num-
ber of the booths being very attrac-
tive. The festival was held on the
Ell Hill lawn and it was attractive-
ly lighted with electric bulbs. Sixty
gallons of ice cream were used.

A NEW ERA HAS COME FOR NEWARK

The City Drug Store Has Taken the Agency of That Wonderful Tonic of Tonics, Tono-Nerve

All ye people who are sick and ailing, whose nerves are unstrung and whose sleep is fitful and eternally disturbed by unpleasant dreams, whose lungs are weak, there is hope and the City Drug Store holds it out to you at the very low cost of \$1.00 a large bottle in the Tonic of Tonics, Tono-Nerve.

You don't be skeptical; it is not a patent nostrum, but a physician's prescription filled with all the care that one of the City Drug Store pharmacists would exercise were he putting it up under your doctor's orders.

You will notice results immediately on taking Tono-Nerve. Your appetite will improve and you'll feel stronger and brighter. It is the best tonic to tone up your tired unstrung nerves, to increase your appetite so that you can enjoy your meals. It makes pure blood, so you will not be troubled with headaches, dizziness, restlessness, depression, trembling and nervous prostration. Tono-Nerve is nature's own reconstructive—providing iron and phosphorus in the only complete form—the greatest tonic builder in existence. The City Drug Store will refund your money if Tono-Nerve fails to help you.

to information from bankers and gave little heed to the farmer.

About the only directory provision in the new law is that the 12 federal land bank districts shall be apportioned with "due regard to the farm land needs of the country," and that state lines shall not be broken in defining districts.

It is said, however, that the board in locating the banks would consider first, cities which are near farming centers, regardless of size or other banking facilities, and that cities which were candidates for federal reserve banks, but failed to get them, probably would be strongly considered for federal land banks.

Requests for loans on farm lands under the law already have been filed in large numbers in the treasury department, but no action can be taken on them until after the board is organized. The board will have offices in the treasury department here, as has the federal reserve board.

Each federal land bank must have a subscription capital of \$750,000 before beginning business. Individuals, corporations, state governments and the United States may hold stock under the law, but dividends accruing may not be paid the United States as to other stockholders.

The banks will not come in direct contact with farmer borrowers but will operate through national farm associations, corporations chartered by the farm loan board under authority of Congress and operating in the farming communities where loans are sought.

All loans to be made under the system must be secured by first mortgages, providing for amortization over a period of years and at interest not exceeding 6 per cent. No loan may exceed 50 per cent of the value of the land mortgaged and 20 per cent of the value of permanent improvements not be greater than \$100,000 nor less than \$100. Mortgages may run from five to 10 years.

Mr. Lobdell is a student of farmers' problems and has had extensive experience in loans on farm lands. He was a farmer before studying law, served in the Kansas legislature for 10 years and was speaker of the Kansas house in 1887.

In 1902 he was elected a judge and served on the bench for nine years, resigning to become president of a bank at Great Bend. He also is president of a loan association and is connected with several banks. He is past president of the Kansas Par Association and of the Kansas Bankers' Association.

Mr. Norris, a graduate of the University of Pennsylvania, has been successively a newspaper man, a lawyer and a banker. In 1894 he took charge of the bond and investment business of a private banking concern in Philadelphia and served as a member of the firm until 1911, when he retired from business to study social and economic questions. Later he was appointed director of the department of highways, docks and ferries in Philadelphia by Mayor Blakenburg. He is a director and deputy chairman of the federal reserve bank of Philadelphia, and active in various civic and philanthropic organizations.

Mr. Smith, a farmer by occupation for the past year has been an expert in farm practice in the department of agriculture here, and has had extensive experience in farming problems. As a young man he went to sea and became a ship master. For several years he served on the loan committee of a national bank in Sioux City.

Mr. Quick, until a few months ago, was editor of Farm and Fire, and for many years has devoted himself to a study of rural credits and other farm problems. Early in his career he taught school and practiced law, and later was general manager of a telephone company in Nebraska and Iowa. He was nominated three times for mayor of Sioux City and was elected once serving from 1898 to 1900. He was nominated for supreme court judge in Iowa in 1902.

SHIP GIVEN UP

COMES TO PORT.

(Associated Press Telegram)
New Orleans, July 23.—The Spanish bark Juanita, more than one hundred days out, and given up for lost, crossed the bar at the mouth of the river here early today. The vessel in the path of the recent tropical hurricane and was driven far from her course. She cleared in water ballast from Valencia, Spain, April 17 for New Orleans to load staves for Barcelona.

O. W. U.'s PRESIDENT IS A BROTHER OF MRS. C. G. HAZLETT

The Rev. John W. Hoffman, D. D., just elected to the presidency of the Ohio Wesleyan university is not a stranger to Newark. He has visited here on several occasions and about a year ago preached from the pulpit of the First Presbyterian church to an unusually large audience upon whom he made a most favorable impression.

Dr. Hoffman was born at Nobles-town, Pa., and graduated from Washington and Jefferson college with honor from which institution he has received the degree of Doctor of Divinity. He has also studied at and taken degrees from the divinity schools of both Yale and Princeton. He is a member of the Phi Gamma Delta fraternity and also of the Masonic order. He has held unusually successful pastorates in Pittsburgh, Crafton, Pa., and at Duluth, Minn., where he is now pastor of the First M. E. church.

Dr. Hoffman's characteristics are his democratic habits, a finely developed and vigorous intellect, extraordinary pulpit ability, a strong leader, a systematic organizer and a good mixer. Mrs. Calvin G. Hazlett, wife of the pastor of the First Presbyterian church of this city is his sister.

The Railroads

General Supt. Here.

H. B. Voorhees, general superintendent of the Baltimore & Ohio railroad company and several other officials making an inspection tour of the Ohio division, arrived in Newark last night from Chicago Junction. The party stayed at the Walden hotel last night and this morning went over the Sandusky division on an inspection tour.

Several Excursions Scheduled.

The Baltimore & Ohio railroad company has closed a number of contracts for excursions to Cedar Point from points in Central Ohio. The business men of U. S. will have an excursion to Sandusky on August 24. A few days later the Seamless Tube Company, of Shelby, will run a two train excursion of 18 cars to the point for the company's annual outing.

August 9, the Mansfield business men will have an outing at Cedar Point and an excursion will be run by the B. & O. company. Cambridge will have an excursion September 4, when the Cambridge Glass company, holds its annual outing at Cedar Point. Tomorrow the Baltimore & Ohio company will handle an excursion from Cuyahoga and Monroe Falls, to the Point and Sunday, July 30, the Chicago Junction to Columbus excursion will pass through Newark at 9 o'clock. Special rates to Columbus on this date will prevail.

Vegetable Trains Daily.

The Baltimore & Ohio railroad company has stationed a train crew at Marietta and each day a special train of 20 cars loaded with vegetables is run from Marietta to Pittsburgh. The vegetables are gathered in from small towns in the vicinity of Marietta and shipped to the Pittsburgh market.

Big Increase Shown.
The Baltimore and Ohio Railroad's statement of earnings and expenses for twelve months of the fiscal year is as follows:

NEW TIME FOR GREECE.
Athens, via London, July 23, 1:28 a. m. At midnight on Thursday the clocks of Greece were advanced 25 minutes. This was in accordance with the decision of the government to adopt standard eastern time instead of sun time which has been hitherto observed.

WOMAN SWALLOWS GLASS.
Cleveland, July 23.—Mrs. Anna Dvorski, of East Cleveland, was in a serious condition today as the result of swallowing a quantity of small articles of glass while drinking milk from a bottle Thursday.

J. Henry Miller, Candidate For State Senator

Mr. Miller is asking the Democrats of the 15th-16th Joint Senatorial District, made up of the counties of Licking, Muskingum, Perry and Delaware for the re-nomination at the primaries August 8th. He could ask for no stronger word in his behalf than the following from his home county paper, the Pataaska Standard: "Mr. J. H. Miller of Newark who is out for the Democratic re-nomination for State Senator, he known all over Licking County not only as a capable man but one who is absolutely safe and dependable. All Democrats who desire a representative who will give his constituency an absolutely square deal may be sure of such a man if they give their support and influence for Mr. Miller's re-nomination."

SHE CAN'T "PRAISE IT TOO HIGHLY"

MRS. ELIA PRIEST TELLS DRUG-GIST EVANS ABOUT NERV-WORTH.

This entirely new local endorsement is in effect a message to women who suffer from the physical ills peculiar to their sex. As such and for other weighty reasons it merits the most careful attention:

"About a year ago I was all run down, nervous and couldn't sleep at night until two or three o'clock in the morning. Was also troubled with female weakness and can truthfully say Nerv-Worth did me more good for this trouble than any medicine I had ever tried.

"I took three bottles at this time and did not take any more until this spring have taken two bottles. Since taking it this year the headaches and pains in the back of neck have all disappeared.

"I have been recommending Nerv-Worth to different ones and CAN NOT RECOMMEND IT TOO HIGHLY."

MRS. ELIA PRIEST,
421 E. Main St., Newark, Ohio.
"Four dollar back at T. J. Evans' Drug Store if Nerv-Worth does not benefit YOU."
